Target Store

To our local Target store Manager,

ICE agents storming Richfield Target, tackling and detaining two Target employees, is wrong, inhumane, racist, cruel and unconstitutional.

Target is a homegrown Minnesota company and one of our largest employers here in the state. We make Target work. We are responsible for Target. ICE is staging at Target and is entering stores, tackling and arresting and detaining workers and customers not just in Richfield, but elsewhere.

As neighborhood residents and customers, we demand:

#1 - Target commits to be a 4th amendment business - to put up signs that ICE is not allowed on the premises without a judicial warrant.

#2 - Target steps up as a corporate leader to demand with us that ICE needs to get out of Minnesota now. **Target leadership, we want to hear loud and clear from you: ICE out of Minnesota for Good.**

Signed,
